Project Proposal:

1.Introduction:
 3D animation of a Breadboard

2.Objectives:

A breadboard (sometimes called a plugblock) is used for building temporary circuits.It benefits designers since it makes it simple to remove and replace components.The purpose of this project is to build a 3D model of the structure and the working procedure of a breadboard.

3.Project time frame:
19 December 2022 to 10 Februray 2023

4.Portable tools to be used:
Blender
Kdenlive
Audacity
